Subject: RE: Alabama Water Quality Criteria for Toxic Pollutants to Protect Human Health

I hope we receive a Corrected Corrected Letter that actually contains the "enclosed" tables? Without knowing the specific pollutants being referred to, near as I can tell, these organizations are asking for an Administrator's Determination that Alabama must adopt the 2015 HHC updates.

Blackman.Daniel@epa.gov

Dear Administrator Regan and Regional Administrator Blackman:

Attached is a request, submitted on behalf of the Environmental Defense Alliance, Waterkeepers Alabama, and Alabama Rivers Alliance, that you make a determination that new and revised water quality criteria for toxic pollutants are necessary to meet the requirements of the Clean Water Act in Alabama and protect the health of Alabamians. We look forward to hearing from you or your staff soon.

Sincerely,

David A. Ludder
